

BUILDing Math Talk in Early Childhood Settings

Wednesday, July 19, 9am–4pm

Register by
July 12

For early
childhood
educators

Lancaster Extension Education Center
444 Cherrycreek Road, Lincoln

Presented by Kelley Buchheister, Assistant Professor Child, Youth, & Family Studies, University of Nebraska–Lincoln in connection with Nebraska Extension

Block play naturally involves several Science, Technology, Engineering and Mathematical (STEM) concepts. This workshop will focus on STEM constructs that can be addressed through various block play experiences and emphasize strategies to enhance and increase potential for mathematical talk. Participants will engage in reflective activities that identify opportunities to explore STEM concepts and apply tenets of developmentally appropriate practice. This will help participants design environments that promote STEM learning through block play.

\$30 (includes lunch).
6 in-service hours.

Space is limited,
so register early!

For more information, call Jaci at 402-441-7180.

Extension is a Division of the Institute of Agriculture and Natural Resources at the University of Nebraska–Lincoln cooperating with the Counties and the United States Department of Agriculture.

University of Nebraska–Lincoln Extension educational programs abide with the nondiscrimination policies of the University of Nebraska–Lincoln and the United States Department of Agriculture.
