

Disposal of Special Waste

Computer Equipment

REUSING — Usable (486 or newer) computer equipment may be donated to area charities and schools.

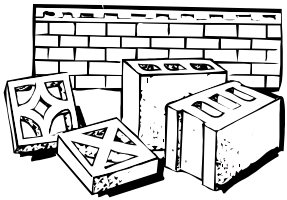

Lincoln Recycling Office
441-8215

Maintains a listing of charities and their minimum equipment standards

Keep Nebraska Beautiful
3201 Pioneers Blvd., Ste. 306, 486-4562
For large quantities only

RECYCLING — Cathode ray tubes (CRTs) and other computer components are recyclable.

Environmental Compliance Enterprises
466-2268
A \$15 fee is charged for each monitor

Construction and Demolition

This includes concrete rubble, clean soil, brick or similar material. A few private contractors do accept concrete and asphalt (and asphalt shingles) that is clean of contaminants, such as scrap metal or dirt, and separated by types. Fees may apply. Call first to make arrangements.

Cather Construction
6400 N. 70th St., 464-2113
Concrete and asphalt only

Dobson Brothers Construction
410 S. 7th St., 474-5115
Large quantities only

Pavers LCC
12303 Hwy 6, Waverly, NE, 786-5900
Also accepts asphalt shingles for a fee of \$8/ton

Clean construction and demolition debris may be taken to the 48th St. Transfer Station for a fee of \$4 per load.

Fluorescent Bulbs from households and items containing PCBs, such as ballasts from old fluorescent lamps and small capacitors from old appliances including radios, monitors, and televisions. Take to a Lincoln-Lancaster County Health Department household hazardous waste collection. *

Oil DO NOT dump used oil on the ground, in the storm drain, into the street or in the garbage.

RECYCLING — Oil must be free of contaminants such as gasoline, water, antifreeze, dirt, leaves, debris and other solids. Drain oil into a container that has a lid and is clearly labeled "used oil." Containers should not hold more than 5 gallons of oil. Locations in Lincoln that accept waste oil are listed below. Call ahead. Never leave oil at a site after hours.

Advanced Auto
222 N. 48th St., 465-5556
3100 Cornhusker Hwy, 465-8188

Amoco Service
48th and Calvert St., 488-9877

Firth Cooperative
Firth, NE, 791-5837

Otte Oil and Propane Company
Davey, NE, /785-2365
Can accept large quantities

Valvoline Instant Oil Change
3500 Village Dr., 421-8089

Paints and Solvents

REUSING — Check with local charities, theater groups and low income housing groups to see if unused paint or solvents can be donated.

DISPOSAL —

• **LATEX (WATER-BASED) PAINT** — For small quantities, take lids off cans and let paint dry. Discard paint in the trash. Be sure to remove lids from cans so refuse haulers can see that the paint has hardened. Large quantities of latex paint can be dried by pouring a 1 inch layer of paint into a plastic lined box. When dry, another layer of paint can be poured. Do this until the container is empty. Can be combined with an absorbent such as clay-based cat litter. When dry, this combination of absorbent and paint should be put in a trash bag and disposed of in the garbage.

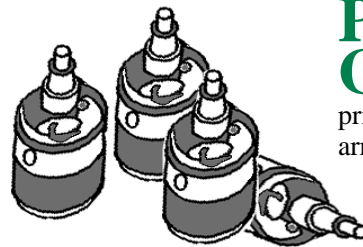

• **LATEX PAINT BRUSHES AND ROLLERS** — Should be wiped with a paper towel or rag, then cleaned in the sink. Use ample water to dilute the paint. Put used paper towels in the garbage. If using a disposable brush or roller, let dry, then dispose of in trash.

• **OIL-BASED PAINT** — Take to a Lincoln-Lancaster County Health Department household hazardous waste collection. *

• **SOLVENTS** — Includes mineral spirits, turpentine, paint strippers and thinners, varnishes, stains, polishes and waxes. Take to a Lincoln-Lancaster County Health Department household hazardous waste collection. *

Pesticides Includes weed killers, garden sprays, wood preservatives, roach powder, pet flea and tick products, rat poisons and others. Take to a Lincoln-Lancaster County Health Department household hazardous waste collection. *

Propane Tanks and Gas Cylinders

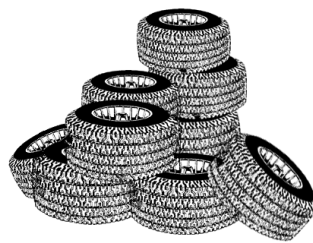

The following are private dealers who accept cylinders. Call ahead to make arrangements and check requirements.

Lee's Propane Service Inc.
625 W. O St., 474-3235

Will accept propane tanks for a \$3 fee. Small disposable gas cylinders are accepted at no charge.

Farrell Gas
3200 Superior St., 477-5151

Will accept propane tanks, but may charge a fee. Small disposable gas cylinders are accepted at no charge.

Tires **RECYCLING** — Residents can place tires at the curb, however, haulers will have a separate fee for disposal of tires. Check with your waste hauler prior to placing tires at the curb. Public can dispose of tires (no more than 10 per load) at the 48th St. Transfer Station for a fee. Many tire retailers will dispose of used tires for a fee. Check with dealer.

Thermometers or other wastes containing liquid mercury should be taken to a Lincoln-Lancaster County Health Department household hazardous waste collection. *

* Household Hazardous Waste Collections

The Lincoln-Lancaster County Health Department sponsors one-day household hazardous waste collections from April to November. Call 441-8040 for dates and locations. There is no cost for this service, however, donations are accepted.

The following items are NOT accepted at household hazardous waste collections:

- Latex paint
- Medicines
- Fertilizers
- Used oil
- Antifreeze
- Batteries
- Explosives or ammunition
